ENVIRONMENTAL MANAGEMENT SYSTEM		
ENVIRONMENTAL POLICY		

LEANO ENERGY is committed to providing a quality service that ensures a safe and healthy workplace environment for our employees and minimizes our impact on the environment. We will actively seek to plan, conduct and monitor operations to limit adverse effects on the receiving environment. We are dedicated to operating in compliance with all the applicable compliance obligations relevant to our company's value chain and those that our interested parties are committed to.

Furthermore, our environmental policy is committed to:

1. Fulfill the conformance and compliance obligations that affect **LEANO ENERGY** and the client.
2. Establish and implement business management systems and controls that will protect and prevent polluting the natural environment.
3. Integrate the consideration of environmental concerns and impacts into our decision making, operations and daily activities.
4. Minimize our waste and, wherever possible, reuse or recycle waste from our daily operations.
5. Create a learning environment that promotes environmental awareness, training and discussions that are applicable to our products and services.
6. Continuously communicate our environmental commitment to all our internal and external interested parties; and,
7. Where required by legislation, and other applicable requirements, develop and maintain appropriate operational controls and preparedness plans.
8. Ensure that pollution and the degradation of the environment are avoided, or, where they cannot be altogether avoided, are minimised and remedied.
9. Managing our carbon footprint and pursuing a low carbon future;
10. Prioritising energy and water efficiency.
11. Ensuring a sustainable use of natural resources.
12. Conduct the activities in an environmentally responsible manner;
13. Execute environmental management systems on all operations, which include environmental auditing, and monitor these systems;
14. Ensure compliance with regulatory standards, environmental legislation, company policies and philosophy by means of environmental auditing.
15. Develop and maintain positive relationships with clients, employees and all affected neighbours, government departments and the public.

NB: Compliance with the Policy shall be the responsibility of every employee!
